# ONE NATION UNDER GOD

## *Christian Heritage Bus Tour in Washington, DC*

The evidence that our Founding Fathers built America on Judeo-Christian principles is written on nearly every building, memorial and monument in our nation's Capital. Your licensed professional guide, with a deep rooted passion for our nation's history, will lead the way as he gives a deeper understanding of our nation's heritage. You will make visits to places such as the World War II Memorial, Martin Luther King Monument, the Jefferson and Lincoln Memorial.

There is rich history at the Capitol building, where the group will have a tour as well as a visit to the Supreme Court. You will visit the Library of Congress to view the Bible Collection. With over 1,500 editions of the Bible in more than 150 languages, the Bible Collection at the Library of Congress offers an unparalleled opportunity to witness the Bible's translations over 800 years.

You won't want to miss this unique opportunity to learn from the many monuments and memorials throughout the city and gain a better understanding of what our Founders believed. Read their own words inscribed in stone and see for yourself, the God they believed in.
